

Key investor information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Ducal Income Fund, a Sub-Fund of Ducal Investment Fund

Class: R, (Accumulation) LU1856981656

This SICAV is managed by Crestbridge Management Company S.A.

Objectives and investment policy

The objective of the Fund is to generate income and to a lesser extent provide long term capital growth by investing in debt securities. The benchmark of the Fund is the JPM GBI Unhedged EUR.

The Fund mainly invests in fixed or floating higher quality bonds and lower quality bonds (such as non-investment grade or unrated bnds) without geographical, sectorial or rating constraints. The Fund may not invest more than 33% of its net assets in lower quality bonds.

The Fund may also, from time to time, hold liquid assets up to 100 % of its assets. The Fund may invest its liquid assets directly in or through UCITS (undertakings for collective investment in transferrable securities) and/or other UCI (undertakings for collective investment), cash deposits and/or money-market instruments, within risk diversification limits. The Fund will not invest in derivative instruments, distressed or defaulted securities, contingent convertible bonds, asset-backed securities or mortgage-backed securities and will not use securities financing transactions or total return swaps.

The reference currency of the Fund is EUR.

This share class is an accumulating share class. Income received by the Fund will automatically be reinvested and the value reflected in the price of the share class.

Subscription and redemption of shares can be carried out on each Bank Business day before 16:00 CET (Luxembourg Time).

Risk and reward profile

This indicator represents the annual historical volatility of the Fund over a 5-year period.

Due to a lack of sufficient historical data, the risk indicator incorporates simulated data from a benchmark portfolio. Risk Category 4 reflects moderate potential gains and/or losses for the portfolio. This is due to investments in debt securities without geographic constraints.

Historical data such as that used to calculate the synthetic indicator cannot be considered as a reliable indication of the Fund's future risk profile.

The risk category associated with the Fund is not guaranteed and may change over time.

The lowest risk category does not mean "risk free".

Your initial investment is not guaranteed.

Significant risk(s) for the Fund not taken into account in this indicator include the following:

Credit risk and interest rate risk: The Fund invests in bonds, cash or other money market instruments. There is a risk that the issuer may default. The likelihood of this happening will depend on the credit-worthiness of the issuer. The risk of default is usually greatest with bonds that are rated as sub-investment grade. An increase in interest rates may cause the value of fixed-income securities held by the Fund to decline. Bond prices and yields have an inverse relationship, when the price of a bond falls the yield rises.

Emerging market risk: A Fund which invests in emerging markets rather than more developed countries may encounter difficulties when buying and selling investments. Emerging markets are also more likely to experience political uncertainty and investments held in these countries may not have the same protection as those held in more developed countries.

Currency risk: The Fund invests in overseas markets. It can be affected by changes in exchange rates which may cause the value of your investment to decrease or increase.

"High yield" bonds risk: The Fund will invest in sub-investment grade bonds. These bonds may produce a higher level of income than investment grade bonds but at a higher risk to your capital.

Investments into other UCI/UCITS: A Fund which invests in other collective investment schemes will not have an active role in the day-to-day management of the collective investment schemes in which it invests. Moreover, a Fund will generally not have the opportunity to evaluate the specific investments made by any underlying collective investment schemes before they are made. Accordingly, the returns of a Fund will primarily depend on the performance of these unrelated underlying fund managers and could be substantially adversely affected by the unfavourable performance.

Charges

The charges and commissions are used to cover the Fund's operating costs, including marketing and distribution of shares. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	2.00%
Exit charge	1.00%
The percentage shown is the maximum amount that can be paid out of your investment. Your financial advisor or distributor can inform you of the associated entry and exit charges.	
Charges taken from the Fund over a year	
Ongoing charges	1.98%
Charges taken from the Fund under specific conditions	
Performance fee	None

The entry and exit charges shown are maximum rates. In certain cases, the charges paid may be lower.

The indicated ongoing charges are an estimate based on the expected total amount of charges. This percentage may vary from year to year. It excludes outperformance charges and intermediation charges, with the exception of entry and exit charges paid by the Fund when it buys or sells shares of another Fund.

For more information about Fund charges, please refer to the relevant sections of the prospectus, which is available at www.anphiko.lu/en/funds.

Past performance

Information on past performance will be provided after the close of the first financial year.

The performance figures shown in the bar chart are not a reliable indication of future performance.

There is insufficient data to provide a useful indication of past performance to investors.

Fund creation date: 1 August 2018

Share class launch date: Not issued.

Base currency: Euro.

Benchmark: JPM GBI Unhedged EUR.
